Ireland.

HARVEST PROSPECTS.—The Limerick Chronicle of Ireland says: "The young wheat crops look remarkably well in all parts of the country. The farmers are sowing potatoes more generally."

France.

A report is credited that England, Austria, France and Russia have protested against the severe treatment of the Bey of Tunis; it is said that this protest will be published in a few days.

Six first-class French steamers have been ordered to the mouth of the Mediterranean, for the ostensible reason of assisting corsair-laden ships bound to France, but the real motive is stated to be a desire on the part of France to prevent the landing of any troops in Portofino from the Italian states, to join the Mignecies.

Spain.....Marsco, Feb. 24.

Accounts from Madrid of the 15th ult. state that General Paravis having claimed, as head of the War Department, the authority of Generalissimo, and his colleagues relating to that which exasperated him, has been removed by the King. Jose Concha would be succeeded in the Ministry of War, and Olivas was spoken of for the Department of Marine.

General Flores, of Ecuador, celebrity, who has been detained at Bayonne so long, through the refusal of the Dutch Government to give him a passport, has received a notification from the Spanish Government to effect that he cannot return to Spain.

The Espafol states that letters have been received at Madrid from Rome, announcing, on the authority of accounts from Genoa, that the King had granted an extraordinary permission to the forces of Naples to march to Spain, and that several light vessels have already taken in arms and ammunition. The chiefs of the expedition hope, it is said, to get possession of the Balearic Islands, by a coup de main, prior to putting into the port of Palma.

The Mignecies have everywhere since the death of Macdonald, joined the Septemberists. Count D'Antras had marched from Oporto to attack Casal, and another division of the insurgents, under Baron Fornos had marched in the direction of Barcelon d'Areu, and Cesar Vassconcelos, in the last days of January, was at Pampelona, prepared to dispute the passage of the Durro with Saldanha. This force had been joined by 500 Mignecies, under Bernardino Mendez Leite, a Sepoy-british officer, at the head of 300 men, and had captured the fort of S. J. Averio, which is within the lines of Saldanha's army, and only eight miles from his headquarters; and had captured 250 stand of arms, and a quantity of ammunition, a considerable sum of money, and several prisoners. Among the latter is the son of Saldanha's Military Secretary. The insurrection was spreading in Algarve, and Faro has been fortified by the insurgents.

Italy and Switzerland.

The disposition to progressive and enlightened policy in the German States, and in the Papal States, has caused repeated demonstrations on the part of Austria. That Government has marched large bodies of troops upon the frontiers of Switzerland and Piedmont. It is said that in the event of any disturbance in the Legations, the King of Italy will intervene.

The Foreign Minister is said that which opposed the Sardinian intervention in 1852, will still more energetically oppose it now, being favorable to the Italian cause.

SWITZERLAND.....GENEVA, Feb. 25.

The institution of a General Council, as demanded by the Revolution of October last, has been carried into effect. This popular assembly is composed of upwards of 10,000 voters, and is invested with the right to nominate the members of the Council of State, to vote on the budget, and to control the executive power of the Grand Council, which has become a merely secondary body. We are very curious to see how this immense Council will transact affairs.

Holland....THE HAGUE, Feb. 26.

A periodical published here, under the patronage of the Government, and specially devoted to Atlantic matters, praises, in the highest terms, the moderation and prudence of the American Commodore Bidder, on his recent visit to Japan. He had no means of information so discreditable, (the Japanese Government positively refused to receive him, or the President's letter,) that he might have been excused had he tried the efficacy of cannon-ball and gunpowder. But had he done so, it is said that he would have been compelled to leave Japan at once.

In his last speech he rather blamed the Japanese for their country's commerce, whereas his moderation has given the Japanese the highest opinion of the nation he represented, and has favorably disposed them toward it. Since he is now in the service of the Admiralty, this article is written by a gentleman who has long resided in Japan, as doctor to the Dutch factory. It appears that the King of Holland has strongly recommended the Emperor of Japan to throw open his country to Europe, so as not to run the risk of being bombarded into civilization like the Chinese.

GERMANY.....BERLIN, Feb. 26.

Bavaria has at length received something in the shape of the long promised Constitution; the King has issued letters patent enacting that the provincial States of the kingdom shall be united into a general State, as it shall be determined by the law of the land, to be known as the Kingdom of Bavaria, as they are called, are to be in number, and are very lengthy, in setting forth a number of minute regulations with respect to the powers and attributes of the New Diet. Besides the concession of the United Diet, for according loans and new taxes, the king has given to his subjects, on the same terms, the right of consulting them on such legislative acts as he may think advisable. It seems however, that they will not be allowed any legislative power, but will be a mere consultative body.

It may be observed, that the King accords to the Diet some control over the public money. The concession is not, perhaps, very greatly entitled to the same weight, as the opening of the Diet.

On the 1st of April next, however, says the King, because the state of the finances requires their cooperation, but because he is anxious to see them around him. The concession made by the King to the Diet, is to be in the form of a general law, and notwithstanding that they fall so far short of public expectation, the official organ of the Government has published some remarkable articles on the subject, in which it holds out a sort of promise, that if the people behave well, the King will make further concessions.

Austria has concluded a loan of \$80,000,000 at 5 percent.

Some of the German journals state that Austria is increasing her army, from apprehension that events in Italy may call for intervention, which will probably bring her into conflict with France.

The King of Bavaria has become so infatuated with a Spanish dancing girl, named Lola Montez, that on his despatch to create her Countess Von Starberg, and endow her with some of the Crown domains, his Ministers have advised, and there exists an idea of doing him harm, and of calling his sides to account.

Nuremberg is about to be declared a free port.

Cannons.

From a report of the Custom House records, we as follows:—Cotton, 627,000 bushels, Wheat, 67,000 do., Flour, 340,000 barrels, Corn Meal, 45,000 do., Large quantities of Flour and Corn, bought for shipment to Europe, are still in store awaiting the means of conveyance to their destination. There are twenty-six vessels taking in cargoes for various parts of Europe, and others are daily expected, to load with like cargoes.

At Baltimore the demand for money has increased, and the market is somewhat more stringent, but nevertheless the Banks continue to discount all good paper offered.

At Cincinnati money was more easy. Moderate demand for Exchange at 4 per cent. premium.

BY ARTHUR FULLER'S S. Sounding School for Boys and Girls, will commence May 1st. This School is conducted on the plan of the Royal Naval School, and the line of the Metropolitan Railroad, 20 miles north of Brooklyn, five hours' ride from the City of New-York. The number of pupils is limited to 100. By thus limiting the number of students, the school will be able to give strict attention to what it professes to be—a Family School where each one will be under their constant care and superintendence. Boys will be fitted for College, or their studies will be conducted in a manner calculated to fit them for any pursuit. Circulars may be had at Arthur Fullers Bookstore, Broadway.

JOSEPH T. M. SEGUIN, Sixteenth Street, New York, has a Master of Captain Seguin, a native of the 11th cavalry. Orders have been issued for the reduction of the Seige of the Russian legions, and the assault of the fortresses of Gagau. Many of the Russian garrison were killed, but the assailants were eventually repulsed.

The Overland Mail.

An express in anticipation of the Overland Mail arrived in London on the 20th ult. by which we have received our usual files. The date are—Calcutta, Jan. 8; Madras, Jan. 14; and China, Dec. 20. There is not much political news of importance. We submit a summary.

The treaty with the Sikhs, given in our last, was duly ratified between Duleep Singh and the Governor-General on Christmas day; and the two augs' persons just named were able to meet at Lahore on New Year's day. Four weeks ago the British army, with a reinforcement of another brigade to Akalpur, under command of Captain Lawrence, of the 11th cavalry, had a body of 4000 mountaineers attacked the fortress of Gagau. Many of the Russian garrison were killed, but the assailants were eventually repulsed.

Caravans.

After two years of the most perfect tranquillity, which permitted the Russes to direct their entire efforts against Soudan, the chief of the Turkoman and Lezgian war has again commenced on the borders of the Black Sea and of the Kuban. A body of 4000 mountaineers attacked the fortress of Gagau. Many of the Russian garrison were killed, but the assailants were eventually repulsed.

Fresh disturbances have broken out among the Khonds of Gomoroor, consequent on the measures proposed by our agent for the suppression of the barbarous sacrifices of human beings periodically performed by them. The town of Mawlamyine has lately been visited by cholera, but the latest date is on the decline. The country, with this exception, is healthy throughout, and the weather cool and agreeable.
